Deluxe Windows

A modern two-story house with a dark grey exterior and a white roofline. The house features a large arched window on the upper level and a series of arched openings on the ground floor, some of which are filled with glass. A swimming pool with a blue tile border is in the foreground, with two red patio umbrellas standing in it. The pool is surrounded by a light-colored stone patio and a green lawn. In the background, there are trees and a cloudy sky.

multi slide interior

A modern outdoor patio area featuring a large glass door with a white frame. The door is partially open, revealing a well-manicured garden with various plants, a small black water feature, and a white fence. In the foreground, there is a dark wooden dining table with several wicker chairs. To the right, there is a lounge area with a white sofa, a fire pit, and a bar area with stools. The background shows a scenic view of green hills and mountains under a blue sky with clouds. The text "slide and stack" is overlaid in blue on a white rectangular background.

I am writing this Yelp on behalf of my mother Kathy LeJay 1 year ago today she purchased windows from California Deluxe windows and had the pleasure of being assisted by window specialist Emmanuel Mann. The windows are everything I was promised/expected and dreamed of.... On April 27th 2021 there was attempted break in on my residence . The screen and the base of window were both damaged , but because of the excellent/durable quality of the windows CDW manufactured the assailant was unable to gain access to residence . I highly recommend if you're in the market of replacing/purchasing windows CDW will be your best choice ! You will not be disappointed! Happy window shopping and make sure you ask for Emmanuel Mann he is definitely the specialist for all your window needs Kathy LeJay

PLATINUM SERIES

"One of the rarest precious metals, platinum is also one of the strongest and heaviest. It has a rich lustre and an understated look."

Your home is a source of pride and a reflection of your hard work, success and distinct taste. You and your family deserve the very best. Like the precious metal, the Platinum Series windows from California Deluxe Windows® are some of the strongest and heaviest in the industry. Understated in elegance, unique in their design, rich with standard features, exceptional in their performance, The Platinum Series will give you long lasting, beautiful, maintenance free enjoyment year after year.

California Deluxe Windows® has been dedicated to manufacturing the highest quality windows and doors since 1999. Our complete line of windows has been designed to help make homes across North America more comfortable and energy efficient while at the same time requiring virtually no maintenance.

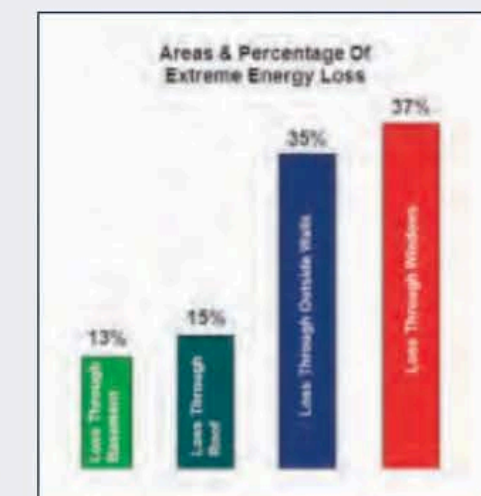

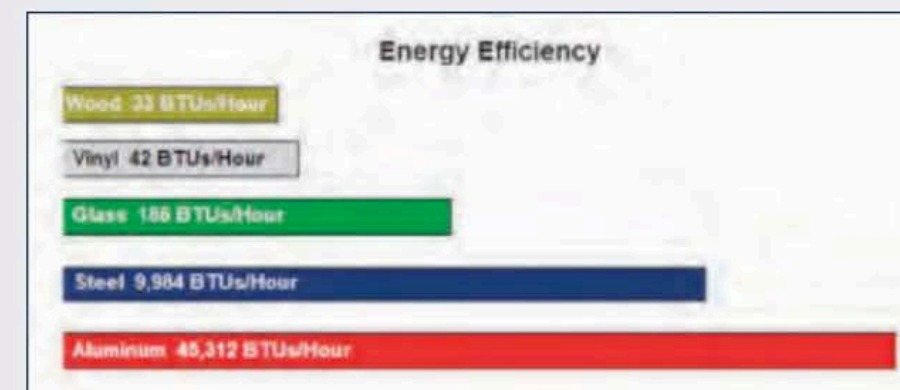

At California Deluxe Windows® we listen to our customers. We understand what you want and you can count on us to provide you with a reliable, superior quality product, service and warranties backed by a company you can trust.

The Platinum Series window will fit your home perfectly - every product is custom made in the exact size you specify. Explore the wide range of options available to you to truly customize your windows.

The wonderful thing about The Platinum Series vinyl windows is that you are the designer. The style and type of window, the wide choice of colors, the myriad of glass and grid options available; whether you are building a new home or improving your existing home, you can design a window that meets your own unique needs.

ENERGY EFFICIENCY

As the chart shows, the greatest energy loss from your home is through inferior quality windows. Compared to aluminum, vinyl is more than 1,000 times more energy efficient.

The Platinum Series Double Hung and Double Slider windows give homeowners the traditional look that they have enjoyed for generations. Superbly engineered to make your rooms more comfortable, they also save you money by lowering your energy bills. The Double Hung and Double Slider have two operable sashes that tilt in for easy cleaning from inside your home. With our heavy vinyl wall construction throughout, the Platinum Series Double Hung and Double Slider are ideal for oversized openings. A special feature of the Platinum Double Hung is the Constant Force Balance system that lets you open and close them with unbelievable ease. The Platinum Series Double Hung and Double Slider feature standard ventilation limit latches, deep interlocks at the meeting rails and a minimum of three weather seals around the perimeter of the sashes to keep wind and water where they belong – outside of your home. For your added safety and security on windows where the sash is wider than 30", our Platinum Series Double Hung and Double Slider have dual keyed cam locks as a standard feature.

Standard Platinum Series Double Hung windows features:

- Fully welded frame and sash
- Beveled edge sill for added security and protection against wind and air infiltration
- Triple, fully replaceable weather stripping around both sashes
- Stainless steel constant force balances
- Dual-keyed cam locks, available in many colors.
- Exclusive Integrated night latch system, strongest available in industry
- Dual ventilation limit latches
- Full screen with high strength mesh
- Double strength, hardened, 7/8" insulating glass IGU with Envirosealed warm edge spacer
- Energy Star highest rated window with CDW Comfort Glass System

Similar in look to a Double Hung or Double Slider, the Platinum Series Single Hung and Single Slider windows give you a classic look that will enhance the appearance of your home. The Single Hung and Single Slider have a single operable sash that tilts in for easy cleaning while the other sash remains stationary. The Platinum Series Single Hung and Single Slider feature the same heavy vinyl wall construction as all of our Platinum Series products and are the windows of choice particularly in new construction when builders require a high quality, dependable window system at a more economical price.

Standard Platinum Series Single Hung features:

- Fully welded frame and sash
- Beveled edge exterior design for added security and protection against wind and air infiltration
- Triple, fully replaceable weather stripping around the operating sash
- Stainless steel constant force balances
- Dual-keyed cam locks
- Exclusive Integrated night latch system, strongest available in industry
- Half screen with high strength screen mesh
- Double strength, hardened, 7/8" insulating glass with Envirosealed warm edge spacer
- Energy Star highest rated window with CDW Comfort Glass System

Specialty Shapes & Custom Internal Grids

Platinum Series

The Platinum Series Specialty Shapes & Custom Internal Grids

The Platinum Series specialty-shape windows can help you realize your unique design ideas. Choose from styles like Half-round, Circle Tops, "Eyebrow" Tops or Quarter-round windows. You can also get Trapezoids, Octagons or Cathedral specialty shapes. You can also select from a wide variety of grid patterns, or V-Groove styles to custom-design your specialty window. You can even specify special glass for a truly exquisite look. The Platinum Series Specialty windows feature the same heavy vinyl wall construction as all of our Platinum Series products.

Every Platinum Series window will fit your home precisely. Every product is custom made to the exact size you specify. Explore the wide range of options available to you to truly customize your windows.

You can make standard windows look extraordinary with the creative use of window grids.

Many homeowners prefer the look of divided-lite windows to complement the architectural style of their homes—but don't like the time and effort required in cleaning true divided-lite windows. In our Platinum Series windows, we solve the problem by sealing the window grids inside the insulated glass unit. You get the look you want—without the cleaning nightmare. Our wide selection of internally installed contoured grids look beautiful and require absolutely no cleaning. Choose from an endless selection of grid patterns, designs and styles.
